Hola! How are you?
You are invited to celebrate
my 50+2 birthday party in true
Mediterranean style.

The party will take place on Oc-
tober 5th and 6th, at a unique
scenario, a meeting place
where we will remember the
moments we have shared toge-
ther and that are part of our
lives.

All of you are important in my
life, family, friends, some of you
I have known for a long time.
However, others relatively little,
some I see often, others I ha-
ven't seen for a long time and I
don't know anything about you
lately.

I sincerely believe that neither
distance nor time has ever
been a problem in my life.

Each of you are unique and I
would love to get you all toge-
ther and celebrate. The excuse
is that I'm already 50+2 and I
still have to get older! I'm
still yet to grow!
